

PRAGMA PP SN8 REDBROWN SOCKETED OD

PRODUCT DESCRIPTION

Pragma PP was developed for the transport and storage of rainwater.

This corrugated pipe complies with the standard **EN13476-3**. This assures you of a solid sewer system with a long-lasting quality. The Pragma pipes and fittings are made of polypropylene (PP). This type of plastic is resistant to chemicals, does not corrode and has a long lifetime.

Due to its special socket with an EPDM seal, the Pragma PP pipe guarantees a permanent and tight connection that allows us to significantly reduce the risk of leaks.

The inner layer of the pipe is smooth and has excellent hydraulic properties. As a result, this pipe also requires a minimum of maintenance.

Material: PP

Color: Redbrown (RAL 8004)

Stiffness class: SN8

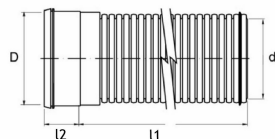

BENOR

Connection 1: Socket

Connection 2: Spigot

O40
