

KABELFLEX PE WITH PULL WIRE

PRODUCT DESCRIPTION

Cables well protected in the ground? You can do that with Kabelflex. These red, flexible, double-walled PE tubes are fitted with a nylon draw wire, have a smooth inner wall and connection sleeves.

Kabelflex from Pipelife offers flexible and robust cable protection. In addition, solid protection facilitates the subsequent installation of other cables. Cable protection pipes protect underground cables from mechanical stress from earth, traffic, damage during e.g. excavation work and moisture.

Material: PE

Color: Red

Connection 1: Socket

Connection 2: Spigot

O25
