

SOLID WALL PVC PIPE SN4 GREY SOCKETED

PRODUCT DESCRIPTION

Pipelife's PVC pipe systems are environmentally friendly, durable and leak-tight. Pipelife produces a wide range of PVC sewer pipes and fittings.

Our solutions are designed with the future in mind.

You can count on a high-quality design with a long lifetime, minimal maintenance and easy installation.

Our high-quality PVC sewer pipes are produced in Kalmthout and are 100% recyclable.

The material is light, rigid and has a low thermal expansion. Thanks to a flexible coupling system, the PVC pipes are quick to install.

These solid-wall PVC pipes have a **BENOR** certification and correspond to the standard **NBN EN 1401-1**.

Material: PVC

Color: Grey (RAL 7037)

Stiffness class: SN4

BENOR

Connection 1: Socket

Connection 2: Spigot
