

PVC POLIVOLT IMPACT RESISTANT GREY

PRODUCT DESCRIPTION

PVC POLIVOLT Impact Resistant Smooth Rigid Pipe – Grey – Class 3341

The reinforced Polivolt pipes have higher impact resistance, making them extra strong even at lower temperatures. Polivolt 16mm and 20mm have a red TopSpeed low friction inner layer that provides 50% less friction resistance. This makes it even easier to pull cables into the tubes. Because you need to use less force, there is also much less chance of damaging the cables.

Available in Ø 16 – 20 – 25 – 32 – 40 – 50 mm
