

PVC PLASTIDRO PN12,5 GREY

PRODUCT DESCRIPTION

Our Plastidro pressure pipes, made of PVC, offer efficient solutions for the **transport of drinking water**.

Thanks to their corrosion- and chemical-resistant properties, you are guaranteed a sustainable network that will last at least 100 years.

This guarantee is due to:

- The qualities of the PVC-U material
- The absence of corrosion
- Low pressure drop
- Good mechanical resistance
- Easy installation
- Proven ability to recycle

The Plastidro pipes are available in several diameters according to pressure class PN12.5 and are usually supplied in lengths of 6 or 12m. These pressure pipes comply with the standard **NBN EN 1452** and have the necessary approvals for the application in drinking water installations.

Pipelife also offers a wide range of Plastidro fittings:

- Normal, non-tensile double sockets and repair sockets
- Pull-tight sockets: **Aquagrip**
- A variety of pulled bends in different angles up to 90°

Material: PVC

Color: Grey

Connection 1: Spigot

Connection 2: Spigot
