

GREENLINE NATUDRAIN – PERFORATED

PRODUCT DESCRIPTION

GreenLine Natudrain is the completely compostable tree aeration and drainage system.

It consists of a biodegradable and compostable raw material and contains no additives harmful to the environment. The system is plastic-free.

The GreenLine Natudrain is extremely suitable for temporary applications such as tree aeration, water extraction and drainage for all types of soil.

Equipped with C2G certificate, it is a sustainable and ecologically responsible choice. It leaves no harmful substances behind after decomposition.

Material: Natural raw materials

Color: White

Connection 1: Socket

Connection 2: Spigot
