

PE DOUBLE WALL CORRUGATED CABLE PIPES 450N, COILED

Standard EN 61386-24

LONG MARKETING TEXT

PE double-walled cable protection pipe for the construction of electrical and telecommunication networks. The products are delivered in a roll. The double-wall cable protection tube is easy to install due to its lightness and handling. The yellow cable protection tube is mainly used for the construction of the electric network, the red and grey communication network, and the green for street lighting.
