

PP RAINEO DOUBLE WALL PIPES FOR RAINWATER SYSTEM SN8 6M

Standard EN 13476-3

LONG MARKETING TEXT

PP RAINEO PIPE ring stiffness SN8 6m BLACK WITH BLUE STRIPES. PP (polypropylene) pipes with a corrugated outer surface and a smooth inner surface, which are used for the construction of self-flowing rainwater drainage pipelines. The ribbed outer surface is black. The smooth inner surface is light gray to ensure good visibility during camera inspection. PRAGMA fittings are used as fittings.

MEASUREMENT DRAWING

| Article number | Diameter D | Inner-diameter | Ring stiffness | Quantity on pallet pcs |
|----------------|------------|----------------|----------------|------------------------|
| 70000487 | 160 mm | 140 mm | SN8 | 28 |
| 70000488 | 200 mm | 175 mm | SN8 | 20 |
| 70000489 | 250 mm | 220 mm | SN8 | 8 |
| 70000490 | 315 mm | 278 mm | SN8 | 6 |
| 70000491 | 400 mm | 353 mm | SN8 | 3 |
